*Managing Director,  
BSE Institute Limited*

Greetings from the BSE Institute.

BSE Institute is a wholly owned subsidiary of BSE (Bombay Stock Exchange) and we have been the pioneers of Financial and Capital Market Education and Skill development in the country.

We offer a wide range of course ranging from the undergraduate, to the post graduate and professional levels. As you are well aware the ability to effectively manage money is a key life skill and we believe that we must start building this early in life.

In order to help build this skill in school children we have been using an innovative approach by conducting an international school level financial Olympiad for students of standards 9th, 10th, 11th and 12th.

We would be glad if the students of your school can participate in this exciting completion.

It will be a three level contest.

Level 1 will be held as an online assessment. Top 10% students will be selected for Level 2, which will be online quiz. For level 3, students participate in a live quiz. The final winners will be selected from each of the 4 categories – 9<sup>th</sup>, 10<sup>th</sup>, 11<sup>th</sup>, 12<sup>th</sup>

The timelines are given below. Look forward to the participation of your students.

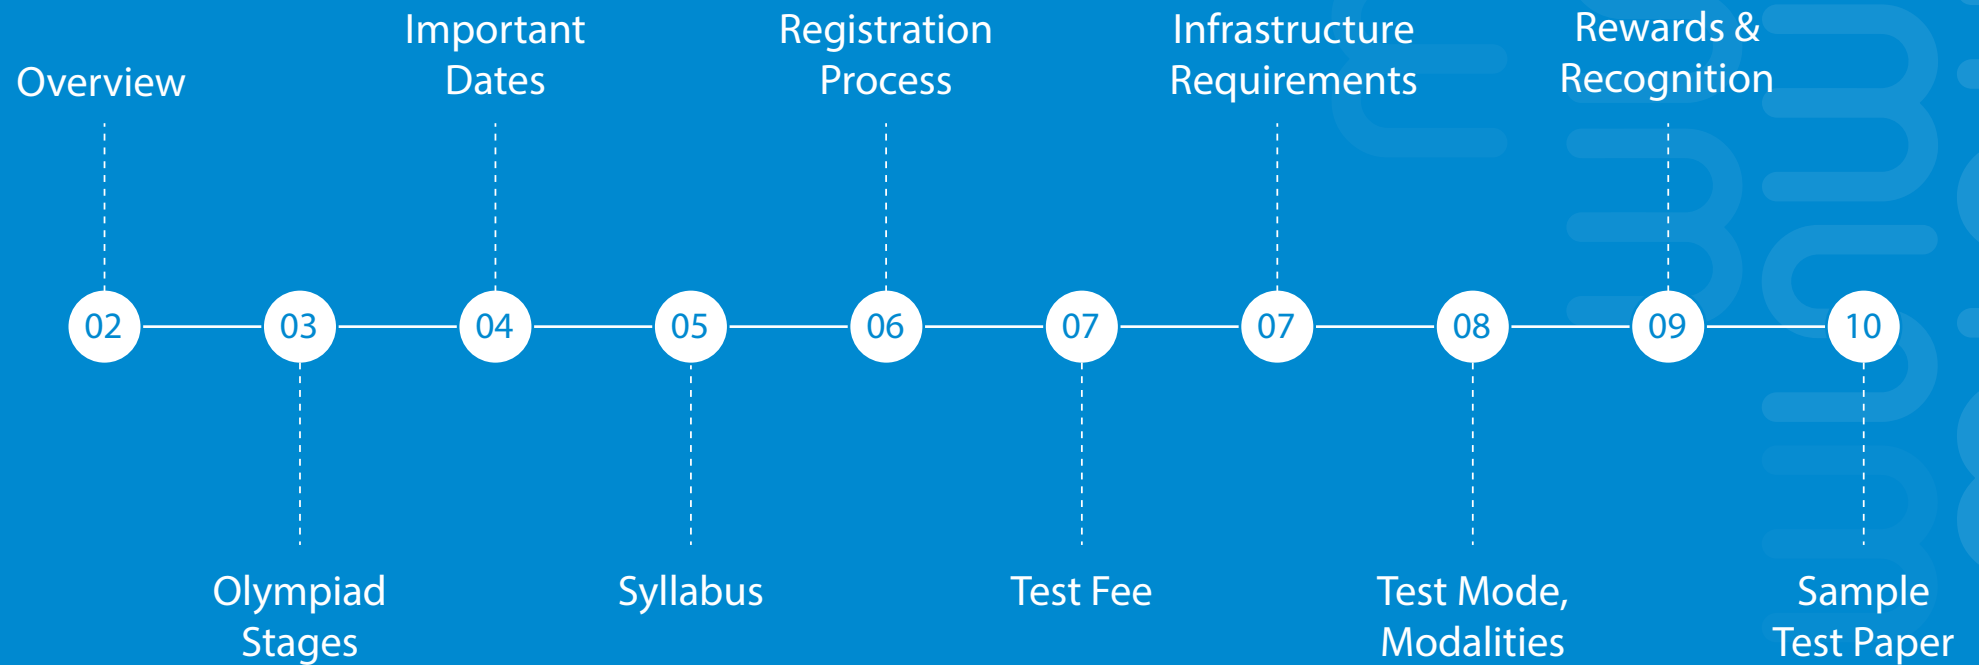

Regards

# Overview

BSE International Finance Olympiad is being conducted to create awareness about financial literacy amongst school students.

It is designed to encourage students to explore, discover, and learn more about the financial world.

The purpose of this Olympiad is to promote commerce and financial advancement, and application. It helps students to learn more about the financial world by exploring, discovering, and learning about it, as well as to develop analytical and problem-solving abilities that will be useful in their future careers.

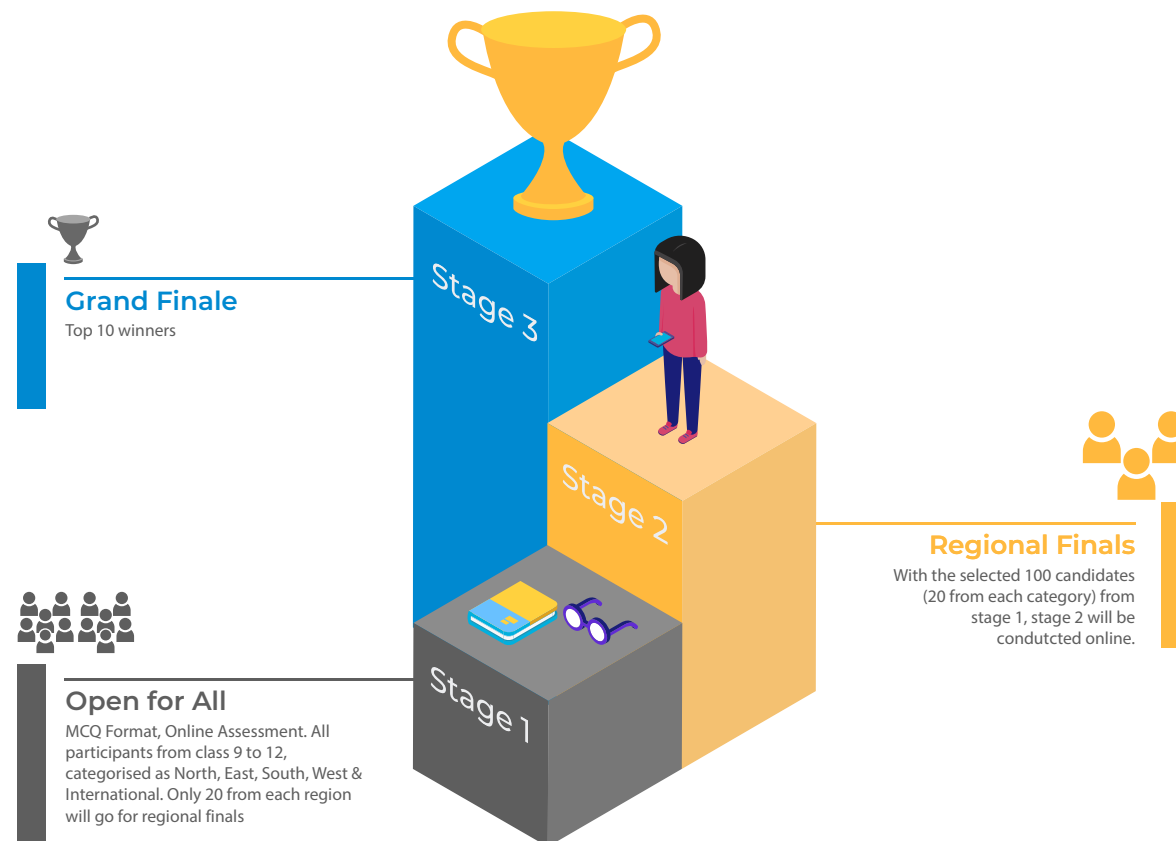

The three-stage Olympiad offers a variety of rewards and recognition to keep students motivated to succeed.

It is highly recommended for students from all streams to participate.

# Olympiad stages

The BSE International Finance Olympiad will be conducted online and will be open to learners from all around the world open to students in grades 9 through 12. Students will have a fair chance to participate and remain competitive, thanks to the multi-tiered design
