## Overview

The foreign exchange market is the largest and fastest growing market in the world. Traditionally, it is the platform through which governments, businesses, investors, travelers, and other interested parties convert or “exchange” currency.

At its most fundamental level, the foreign exchange market is an over-the-counter (OTC) market with no central exchange and clearing house where orders are matched. FX dealers and market makers around the world are linked to each other around-the-clock via telephone, computer, and fax, creating one cohesive market.
